Subject: ENERGY STAR Application for Lincoln Plaza (ID: 1088735)

Dear Faisal Abid:

Thank you for applying for the ENERGY STAR Lincoln Plaza (ID: 1088735). We have reviewed your application, and we wanted to follow up on the issue below:

Your application includes a space that has been benchmarked with more workers on main shift than computers:

- Lincoln Plaza: (b) (4) workers, but only (b) (4) computers

This is unusual for an office space, as each worker typically has at least one computer. Please provide an explanation for why this space has more main shift workers than computers. Are multiple shifts of workers being included in this count?

Please respond to this email by March 5, 2016 if you would like this property to be considered for the ENERGY STAR.

Thank you and we look forward to your response,

ENERGY STAR Certification Review Team

2/4/16

Dear ENERGY STAR Certification Review Team,

The numerous IT departments tell us that the number of PCs and notebooks being supported number (b) (4). This is due to a significant number of employees using shared work stations, and tablets.

Please let us know if this helps.

Thank-you.

Best wishes,

Steve
